We can keep this light and just simple text.
I see no need for TBD placeholder boxes which takes up
a lot of space unnecessarily.

**Once you've accepted a bid from one of your
Qualified Contractors, purchase your Project
Guarantee.**

Guarantee My Project

We can mention the "send us a copy of your completed contract"
after they click the "Guarantee My Project" CTA and enter that flow.
Keeps this less cluttered, and reminds them about the contract at the
point of purchase (when it is actually necessary).

Your Guarantee will cost 3% of your project value.
